Questions this raises — published data only, so these are questions, not conclusions

1. The achievement rate is 7.5 points below the all-provider rate in 2024/25. Since 2022/23 it has fallen 1.1 points, against +10.6 for all providers. The latest year was up 5.1 points. Is that recovery holding in this year's in-year figures, and which standards are still behind?
2. Learners aged 16-18 achieve at 54.2% against 65.4% across all providers. Is this concentrated in particular standards or employers?
3. Equine Groom (160 leavers) is 10.2 points below the national rate for the same standard, while Team Leader is 15.7 points above. The gap looks specific to particular programmes rather than provider-wide. Where in Equine Groom do learners leave?
4. Published rates are a year behind. Can the team see this year's position by standard, employer and caseload before it is published?

What a Review would add. The published figures show where results differ. Your own records show why: which learners, employers and points in the programme. A Review maps that in five working days and sets up a monthly view so you see it before it is published. The Reporting & Insight Review is £345, fixed price, no VAT, with a full refund if it doesn't give you at least three improvements you'd act on. Details at **zktheory.org/services**.
