Questions this raises — published data only, so these are questions, not conclusions

1. National Lottery Community Fund accounts for 80% of the grant value recorded on 360Giving, and the top three funders for 90%. Each will want its own figures. Are they produced from one set of records, or rebuilt for each funder?
2. Over 5 years income has ranged from £160k to £207k, and spending exceeded income in 1 of them before a £18k surplus in the year to March 2025. Swings like this often reflect when multi-year grants are received rather than when they are spent. Can trustees see which funds are restricted and how they will be used over the next two to three years?
3. 35% of income came from public bodies: £72,226 from 9 government grants and £1,007 from 1 government contract. Commissioned work usually brings its own monitoring returns. How much staff time do those returns take each quarter?
4. 1,480 volunteers support the charity. Volunteer hours are strong evidence in funding bids, and under SORP 2026 charities with income over £500,000 that report on their volunteers should give the number and the activities they support. Are hours and roles recorded as they happen, so they can be reported and valued?

What a Review would add. Published figures show the shape of the funding. Your own records show what each funder needs, how long it takes to produce, and where the numbers disagree. A Review maps one recurring report in five working days and shows what it would take to produce it once, checked, for every funder. The Reporting & Insight Review is £345, fixed price, no VAT, with a full refund if it doesn't give you at least three improvements you'd act on. Details at **zktheory.org/services**.
