Questions this raises — published data only, so these are questions, not conclusions

1. Income of £1,424k puts the charity above £500,000, where the Charities SORP 2026 makes impact reporting a requirement in the trustees' report for reporting years beginning on or after 1 January 2026. The first such year has already started. Is the evidence for that section being collected as the year goes, or will it be pieced together at year end?
2. National Lottery Community Fund accounts for 50% of the grant value recorded on 360Giving, and the top three funders for 86%. Each will want its own figures. Are they produced from one set of records, or rebuilt for each funder?
3. 86% of income came from public bodies: £60,560 from 5 government grants and £1,158,959 from 6 government contracts. Commissioned work usually brings its own monitoring returns. How much staff time do those returns take each quarter?
4. 45 volunteers support the charity. Under SORP 2026, charities with income over £500,000 that report on their volunteers should give the number and the activities they support, and may give hours. Are volunteer hours and roles recorded as they happen, so they can be reported and valued?

What a Review would add. Published figures show the shape of the funding. Your own records show what each funder needs, how long it takes to produce, and where the numbers disagree. A Review maps one recurring report in five working days and shows what it would take to produce it once, checked, for every funder. The Reporting & Insight Review is £295, fixed price, no VAT, with a full refund if it doesn't give you at least three improvements you'd act on. Details at **zktheory.org/services**.
