Harbour Skills — Monthly pre-submission check

R02 return, September 2026 · Checked across e-portfolio, MIS and CRM exports before ILR submission

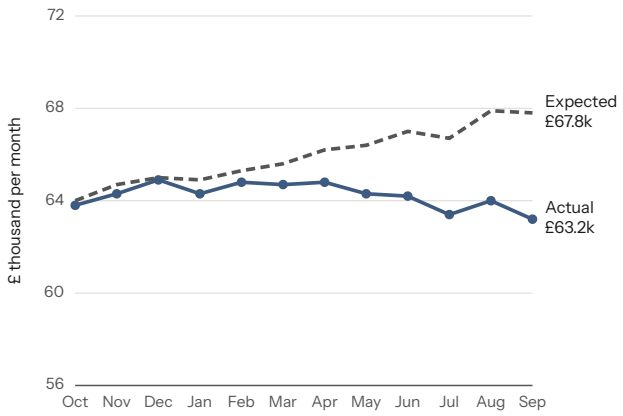
184	11	£4.6k	2
active apprentices checked	records to fix before submission	gap between expected and actual funding in Sep	standards below average retention

Records to fix before submission (6 of 11 shown)

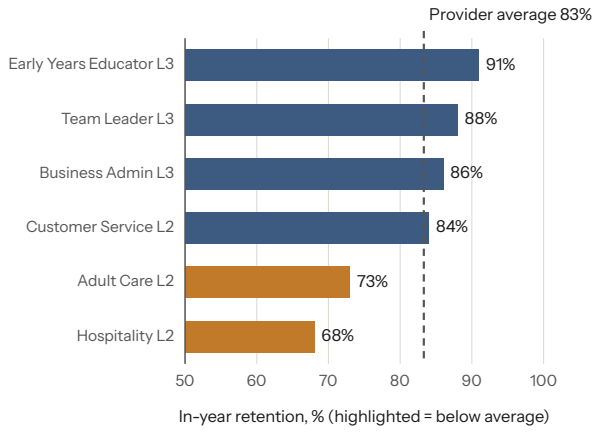
Learner	What doesn't match	Action	Owner
L-0147	Planned end date differs: e-portfolio 14 Nov 2026, MIS 30 Jan 2027	Update MIS or e-portfolio	Quality
L-0162	Break in learning in e-portfolio from 2 Sep, still active in ILR	Record break before submission	MIS
L-0088	Off-the-job hours 41% behind planned pace	Tutor review with employer	Tutor
L-0203	Withdrawal date recorded in CRM but not in MIS	Confirm date and record	MIS
L-0119	Past planned end date by 63 days, no gateway recorded	Check gateway readiness	Quality
L-0175	Employer name differs between contract and ILR	Correct to contract	Admin

Learner references are pseudonymised. The full list goes to the named owner with a due date before the submission deadline.

Funding earned: expected vs actual, Oct 2025 – Sep 2026



Retention by standard, 2025/26



Checks before this month's return

▲ **Check:** 7 learners are past their planned end date without a gateway record. They account for most of the funding gap from April onwards.

▲ **Check:** Adult Care L2 and Hospitality L2 retention has fallen since March. Withdrawals cluster at two employers (E-12 and E-31).

▲ **Check:** Off-the-job hours are behind planned pace for 19 learners. Three are at risk of breaching the minimum requirement this quarter.

What this tells the management team

1. Funding is £4.6k a month below expectation and the gap has grown steadily since April. It is driven by learners overrunning planned end dates, not by fewer starts.
2. Retention problems are concentrated in two standards and two employers, so a targeted employer review will do more than a provider-wide intervention.
3. Fixing the 11 mismatched records before submission avoids corrections next month and keeps funding reports aligned with delivery.

What produces this. A Reporting & Insight Build: a monthly check that compares the systems automatically, lists what to fix before submission, and updates the funding and retention view. It runs from the spreadsheets and exports the organisation already uses. The first step is a £345 Reporting & Insight Review — details at zktheory.org/services.
