Questions this raises — published data only, so these are questions, not conclusions

1. Henry Smith Foundation accounts for 54% of the grant value recorded on 360Giving, and the top three funders for 81%. Each will want its own figures. Are they produced from one set of records, or rebuilt for each funder?
2. Over 5 years income has ranged from £409k to £531k, and spending exceeded income in 1 of them before a £46k surplus in the year to March 2026. Swings like this often reflect when multi-year grants are received rather than when they are spent. Can trustees see which funds are restricted and how they will be used over the next two to three years?
3. 15% of income came from public bodies: £74,299 from 2 government contracts. Commissioned work usually brings its own monitoring returns. How much staff time do those returns take each quarter?

What a Review would add. Published figures show the shape of the funding. Your own records show what each funder needs, how long it takes to produce, and where the numbers disagree. A Review maps one recurring report in five working days and shows what it would take to produce it once, checked, for every funder. The Reporting & Insight Review is £345, fixed price, no VAT, with a full refund if it doesn't give you at least three improvements you'd act on. Details at **zktheory.org/services**.
