FOR CHARITIES AND COMMUNITY GROUPS

Impact evidence pack

The figures for your end-of-grant report, renewal or next bid, drawn from the records you already keep.

Who it's for

- Charities and community groups reaching the end of a grant period, or with a renewal or new application coming up
- Trustees preparing the annual report or an annual impact report
- Organisations whose impact figures are scattered across several spreadsheets

The question it answers

What did we deliver (outputs), what changed for people (outcomes), who did we reach, and what does each outcome cost? Answered with figures a funder can check.

What you get

- Outputs and reach: people, sessions and activity by project, site and month, against your targets
- Outcomes: what changed for the people you work with, using the measures you already record, or the ones in your logic model or theory of change if you have one
- Cost per participant and per outcome by project, from your own finance figures
- Volunteer contribution: hours given and their equivalent value
- A 3–4 page evidence pack with charts and plain-English commentary that works as an end-of-grant report and can be reused with several funders, plus the figures in a spreadsheet you can reuse
- A short paragraph for each key figure you can paste straight into an application or your case for support

What I need from you

- Your activity or attendance records (spreadsheet exports are fine)
- Any outcome or feedback records
- Project costs from your accounts
- Which funder or report this is for, and the deadline

How it works

- 20-minute call to agree the scope and deadline
- You share summary records
- Pack delivered within 10 working days
- One round of changes included

Example finding

Across three projects, the lunch club reached the most people but the advice service produced outcomes at less than half the cost per outcome — a much stronger case for the renewal than headcount alone.

Illustrative example only, not a client result.

£600–£950 fixed price

Price depends on the number of projects and data sources, and is confirmed before any work starts. Unlike a report written from an interview, every figure is checked against your records and you keep the workbook. Invoiced on booking, payable on delivery. No VAT is added.

Best time: At the end of a grant period, or 6–8 weeks before a funding deadline or the annual report.

Your data. I work from summary figures and anonymised records. I don't need names or personal details; if a piece of work ever needs record-level data, we agree exactly what, how it's handled and when it's deleted, in writing, before anything is shared.

Next step: email **stephen@zktheory.org** with a line about what you need and when it's due. I'll reply within two working days with whether I can help and a fixed price.
