Questions this raises — published data only, so these are questions, not conclusions

1. National Lottery Community Fund accounts for 56% of the grant value recorded on 360Giving, and the top three funders for 90%. Each will want its own figures. Are they produced from one set of records, or rebuilt for each funder?
2. Expenditure exceeded income by £49,100 in the year to December 2024. When that happens through planned use of reserves or grant timing, trustees need a clear forward view. How far ahead can the board currently see?
3. 54% of income came from public bodies: £19,500 from 7 government grants and £50,643 from 1 government contract. Commissioned work usually brings its own monitoring returns. How much staff time do those returns take each quarter?
4. 50 volunteers support the charity, and SORP 2026 asks every charity's trustees' report to describe volunteer contributions. Are volunteer hours recorded in a way that can be reported and valued, for that and for funding bids?

What a Review would add. Published figures show the shape of the funding. Your own records show what each funder needs, how long it takes to produce, and where the numbers disagree. A Review maps one recurring report in five working days and shows what it would take to produce it once, checked, for every funder. The Reporting & Insight Review is £345, fixed price, no VAT, with a full refund if it doesn't give you at least three improvements you'd act on. Details at **zktheory.org/services**.
